

# ESSENTIAL COATINGS

## WINDOW+

### DRIVE SAFER WITH IMPROVED CLARITY AND VISIBILITY.

Tested to be compatible with most windshields presenting little to no wiper movement issues or noises. Treat yourself to a clearer vision and a safer driving experience with superb water repellent performance. Lessens build-up of ice during winter for more convenience and quality of life. Formulated to be fuss-free and easy to apply for users of all proficiencies. With a repellent capability enhanced using CNT, the coating can repel dirt, water and substances effectively. This keeps the treated surface cleaner for a longer period, reducing the frequency of cleaning or washing. With less contaminants having a chance to etch into the surface, this helps to reduce chances of water-spots and stains.

Chemical Resistance: pH3 - pH13

### PRODUCT FINISHING

- Slick & smooth
- Optically clear

Available sizes: 30ml, 100ml, 500ml, 1L

- 2 years maximum durability
- Ultra Hydrophobic
- Reduces ice build up
- Most Windshield compatible
- Rapid water dispersion
- Slower UV Degradation (Hydrophobic Property)
- Corrosion resistant
- Chemical resistant
- Anti-fouling
- Spreads easy
- Low surface friction
- Excellent self-cleaning
- Etching reduction
- Easy cleaning
- Dirt/dust repelling
- Stays cleaner longer
